

**MARRICK PRIORY OUTDOOR CENTRE**  
**CLOTHING AND EQUIPMENT LIST**

The quantity of clothing you bring will always depend on your visit duration and chosen activities. Generally participants will be encouraged to wear clothing in layers, according to the time of year and prevailing weather conditions (3 or 4 layers on the upper body are normal for most activities). Synthetic, rather than cotton, material is commonly regarded as being more effective as a base layer (next to the skin).

Denim jeans are not suitable for outdoor activities, but are ideal to be kept for evening indoor recreational use.

A suggested check list, based on a full weeks programme, is as follows:

Note

We do have a small stock of waterproofs and old trainers (for wet activities).

Please don't feel that items need to be purchased specially for the trip. A good supply of robust, versatile and fairly easy to dry items will do.
