Dear Parents and Carers

As you may be aware, we are currently managing a sickness bug in school which began as the children came back following the summer break. Having been in school most of the summer break and all of the last two weeks, I can confirm that school was thoroughly cleaned and we suspect this is an air born bug.

The first children and staff to be struck with the sickness and diarrhoea bug appear to be concentrated in one part of the school building. The bug has now spread and we are monitoring this very carefully with the support of our health and safety advisors.

I would be grateful if you could support us in reminding the children about personal hygiene and the importance of handwashing.

If your child should suffer from the bug then please ensure that you keep them off school for 48 hours from the last bout of sickness or diarrhoea. This is vital in helping prevent the spread of the bug.

I am grateful for your support in this matter and hope that we are soon all back to fighting fitness.

Yours sincerely,

Miss Watson
Headteacher
